1. Summary

Produced by the Auckland Council Research and Evaluation Unit (RIMU), the Auckland Monthly Housing Update brings together a number of significant Auckland housing related statistics.

The report includes:

- dwellings – consented, by type, and with CCCs issued
- residential parcels – created, and inside Auckland Plan monitoring boundaries – 2010 Metropolitan Urban Limit (MUL) and Rural Urban Boundary (RUB)
- permanent and long-term migration
- median residential sales price
- public housing supply and demand in Auckland.

2. Highlights

- 1910 dwellings were consented in June 2021.
- In the year ending June 2021, 19,035 dwellings were consented in the region.
- 32 per cent of new dwellings consented in June 2021 were houses, 20 per cent were apartments and 47 per cent were townhouses, flats, units, retirement village units, or other types of attached dwellings.
- 218 dwellings were consented on Kāinga Ora or Tāmaki Regeneration Company owned land in June 2021.
- 1796 dwellings consented in June 2021 were inside the RUB. Over the past 12 months, 94 per cent of new dwellings consented were inside the RUB.
- 21 per cent of dwellings consented were inside the 1500m walking catchments of the rapid transit network in June 2021.
- 1532 dwellings were ‘completed’ by having a Code Compliance Certificate (CCC) issued in June 2021.
- In the year ending June 2021, 14,421 dwellings had a CCC issued.
- 900 new residential parcels under 5000m² were created in July 2021.
- In the past 12 months, 8544 new residential parcels under 5000m² were created – an average of 712 each month.
- In July 2021, 836 new residential parcels of all sizes were created inside the RUB.
- Long-term arrivals in May 2021 were 1893.
- 736 public housing applications have been housed in the March quarter 2021.

3. Dwellings consented

In June 2021, 1910 dwelling consents were issued, which saw 19,035 consents issued for the past 12 months.

11. Permanent and long-term migration

Long-term arrival number in May 2021 was 1893. Net migration to Auckland data was not available because the requirement for passengers to complete departure cards stopped in November 2018. A new methodology was developed by Statistics New Zealand, however, no regional output was released at the time this monitoring report was produced.

¹ Back data has been updated to reflect the latest sales records captured in council's District Valuation Roll database. Although conveyancers are required to inform council within 30 days after transactions have occurred, the monitoring team has identified the reporting process has not been thoroughly implemented. It should be noted that there is no penalty if a conveyancer fails to report to council within the 30-day period. As a result, the reporting lag varies from as short as one working day to as long as six months

13. Public housing in Auckland²

This section provides an overview of public housing demand and supply in Auckland region. These data are collected and distributed by the Ministry of Housing and Urban Development on a quarterly basis. In the March quarter 2021, 736 public housing applications have been housed with Kāinga Ora or with a Community Housing Provider.

	March quarter 2020	June quarter 2020	September quarter 2020	December quarter 2020	March quarter 2021

14. Notes on data and analysis

Dwellings consented and dwellings consented by type

Monthly building consent information is sourced from Statistics New Zealand's InfoShare online portal, which includes counts of number of new dwellings consented, by type of dwelling.

Dwellings consented by Auckland Plan monitoring boundaries

Monthly data for individual building consents is supplied by Statistics New Zealand and mapped to properties by RIMU. This data is then analysed against its location relevant to the Auckland Plan monitoring boundaries, namely the 2010 Metropolitan Urban Limit (MUL) and the Rural Urban Boundary (RUB).

Dwellings with CCCs issued (completions)

Monthly building consent completions data is supplied by Auckland Council Building Control. The data shows the total number of dwelling units which have had Code Compliance Certificate (CCC) issued in that month. This gives an estimation of the number of dwellings being "completed", or "released to the market".

Residential parcels created and residential parcels created inside the 2010 Metropolitan Urban Limit and the Rural Urban Boundary

Parcel data is sourced from Land Information New Zealand (LINZ). A new dataset is downloaded from the LINZ Data Service by RIMU monthly. A list of parcels created in the previous month is also downloaded; this is used to extract new parcels created in the previous month. The new parcels created data is then analysed for size, the Auckland Unitary Plan (decisions version) zone it falls in and its location relevant to the 2010 MUL and the RUB.

Permanent and long-term migration

Migration data is sourced from Statistics New Zealand's InfoShare online portal; arrivals, departures and net change are estimated for Auckland.

Median residential sales price

The Real Estate Institute of New Zealand (REINZ) produces monthly statistics on the median house price sales for Auckland from data provided to it by its members. This data is available on the REINZ website.

Public housing supply

Public houses are properties owned or leased by Kāinga Ora and registered Community Housing Providers (CHPs) that can be tenanted by people who are eligible for public housing. (definition extracted from Ministry of Housing and Urban Development 2019, Public Housing in Auckland Region factsheet September 2019, page 1.

Public Housing Register

The Public Housing Register is comprised of a Housing Register and a Transfer Register. The Housing Register is prioritised by need and consists of public housing applicants who have been assessed as being eligible. The Transfer Register is made up of people already in public housing, but who have requested and are eligible for a transfer to another property. (definition extracted from Ministry of Housing and Urban Development 2019, Public Housing in Auckland factsheet September 2019, page 3.
