Real GDP growth	Real retail sales growth	Real weekly rent	Real imports by seaports
7%         41.3%           6%         4%           9%         4%           1%	average       average         average       average	\$683 (AKL) 700 600 600 600 600 600 600 600 600 600	50 45 45 40 40 40 40 40 40 40 40 40 40
Auckland's real* Gross Domestic Product (GDP) for the <b>year</b> ended December 2023 was 1.3% <b>higher</b> than for the year ended December 2022; in the rest of New Zealand, the annual change was a 0.3% <b>rise</b> (see notes). Both growth rates were <b>below</b> most periods since 2010 and 2011 respectively.	Real retail sales* for the <i>year</i> ended December 2023 were 2.5% <i>lower</i> than for the year ended December 2022; in the rest of New Zealand, the annual change was a 3.9% <i>fall</i> . Both growth rates were <i>the worst</i> since 2009 (just after the Global Financial Crisis). From 2017 to 2021 Auckland growth was <i>similar</i> to the rest of New Zealand, but from 2022 onwards Auckland's growth rate has been <i>higher</i> .	The average (not median or geometric mean) real weekly rent* for the <i>month</i> (not year) of December 2023 was \$683 (4.7% <i>higher</i> than December 2022, but still <i>similar</i> to seven years ago). For the rest of New Zealand, the figure was \$586 (3.7% <i>higher</i> than December 2022, but <i>similar</i> to two years ago). "Real rent" changes are relative to CPI inflation, so a <i>similar</i> "real" level means rents rose at the same rate as inflation.	The real* value of imports by Auckland seaports for the <b>year</b> ended January 2024 was \$31.3 billion, which was 6.6% <b>lower</b> than the year ended January 2023, but 7.0% <b>higher</b> than 5 years ago. For the rest of New Zealand, the figure was \$32.7 billion (20.4% <b>lower</b> than a year ago, but 6.1% <b>higher</b> than 5 years ago). Auckland's robust post-Covid growth slowed after 2021; the rest of New Zealand has been falling sharply since 2023.
<ul> <li>* Real GDP refers to GDP in constant 2022 dollars, to remove inflation.</li> <li>Lockdowns due to Covid-19 affect results for 2020 onwards. Covid-19 lockdown level 3 began on 23 March 2020.</li> <li>Latest and historical real GDP figures are modelled estimates, and subject to revision.</li> <li>Source: Infometrics, Regional Economic Profile/Quarterly Economic Monitor.</li> </ul>	<ul> <li>* Real retail sales have been calculated by converting previous quarters' dollars to the latest quarter's equivalent dollars using the quarterly consumer price index (CPI), to remove inflation.</li> <li>Note: These figures exclude non-retail activity captured elsewhere in the retail sales survey.</li> <li>Source: Stats NZ, Retail Sales (quarterly); Stats NZ, CPI (quarterly); Auckland Council (RIMU), calculations.</li> </ul>	<ul> <li>* Real rents have been calculated by converting previous quarters' dollars to the latest quarter's equivalent dollars using the quarterly consumer price index (CPI), to remove inflation.</li> <li>Note: Dwelling size and quality may vary over time. Rent is for new rental bonds lodged each month with Ministry of Business, Innovation and Employment, for housing tenancies with private sector landlords (so excludes state housing). Data covers only new bonds, so excludes existing leases from earlier periods whose rent has not changed, or has changed but with no revision to the bond. It also excludes new leases where no bond is lodged. Data is subject to minor revisions.</li> <li>Source: Ministry of Business, Innovation and Employment, Regional Rental Prices (monthly); Stats NZ, CPI (quarterly); Auckland Council (RIMU), calculations.</li> </ul>	<ul> <li>* Real import values have been calculated by converting previous quarters' dollars to the latest quarter's equivalent dollars using the quarterly consumer price index (CPI) for tradables, to remove inflation</li> <li>Note: Import values are cost including freight (CIF). Auckland seaports consist of Port of Auckland on the Waitemata Harbour near the CBD, and Port of Onehunga on the Manukau Harbour (domestic only, no imports); both are owned by Ports of Auckland Limited (POAL).</li> <li>Source: Stats NZ, Overseas Cargo Statistics- imports-value \$ CIF (monthly); Stats NZ, CPI Tradables (quarterly); Auckland Council (RIMU), calculations.</li> </ul>

House sales: price and number sold	Buildings consented	Employment and unemployment	Confidence indicators
\$1,600,000 Fis,40	5,000 (Number, Left axis) 5,000 4,500 4,500 4,500 4,500 4,500 4,500 4,500 4,500 4,500 4,500 4,500 4,500 3,000 10,000 5,000 4,500 3,000 10,000 5,000 4,500 3,000 10,000 5,000 4,500 3,000 10,000 5,000 4,500 3,000 1,500 5,000 4,500 3,000 1,500 5,000 4,500 3,000 5,000 5,000 4,500 3,000 5,000 4,500 3,000 5,000 5,000 4,500 3,000 5,000	10% 10% 10% 10% 10% 10% 10% 10%	150 140 140 130 120 130 120 130 120 130 120 130 120 120 120 120 120 120 120 12
The median (not average) sale price of houses sold in Auckland in the <i>month</i> of January 2024 was \$975,000 - the <i>lowest</i> in seven years, in real* dollars (1% <i>lower</i> than a year prior; 34% <i>below</i> the 2021 peak; 8% <i>below</i> seven years ago). The total number of houses sold in Auckland in the <i>year</i> ended January 2024 was 19,787 (1% <i>lower</i> than a year prior, but <i>higher</i> than most of 2023).	The total number of new dwellings consented in Auckland in the <b>year</b> ended January 2024 was 15,309 (28% <b>lower</b> than year ended January 2023; continuously <b>falling</b> since September 2022 (21,985); <b>above</b> 2019 levels and earlier). The real value* of new non-residential buildings consented in Auckland in the <b>year</b> ended January 2024 was \$2,934 million (broadly <b>similar</b> to the last several months, but 13% <b>below</b> the November 2022 peak).	The number of people employed in Auckland in the <i>quarter</i> (not year) ended December 2023 was 3.6% <i>higher</i> than in December 2022 quarter, due to both population growth and higher labour force participation rate. The unemployment rate in Auckland in the <i>quarter</i> ended December 2023 was 4.2%, <i>slightly above</i> the last two years' record lows, but still <i>lower</i> than 2008 to 2017, and <i>similar</i> or <i>below</i> 2018 to 2021.	In Auckland, the Westpac McDermott Miller Consumer Confidence Index (CCI) for the December 2023 <i>quarter</i> was 91.5 – <i>highest</i> since March 2022, but <i>below</i> 2009 to 2021. The NZIER QSBO in Auckland for the December 2023 <i>quarter</i> showed a net 1% of businesses expecting an <i>improvement</i> in the general business situation over the next three months – <i>much higher</i> than 2022 and 2023, <i>similar</i> to 2021 but <i>below</i> pre-2018.
<ul> <li>* 'Real' prices for previous months are calculated by inflating previous quarters' dollars to the latest quarter's equivalent dollars, using the quarterly consumer price index (CPI).</li> <li>Notes: The data for 'houses' covers actual sales during the period. Size and quality may vary over time. 'Houses' includes all dwelling types (eg apartments and flats), not just free-standing houses, but excludes sales of undeveloped land. 'Price' is real actual sale price* (not just listed). REINZ revises recent data each month for prices and numbers sold.</li> <li>Source: Real Estate Institute of New Zealand (REINZ), Monthly Property Report (monthly – from website); Stats NZ, CPI (quarterly); Auckland Council (RIMU), calculations.</li> </ul>	<ul> <li>* 'Real' values for previous months have been calculated by inflating previous quarters' dollars to the latest quarter's equivalent dollars, using the capital goods price index (CGPI) for non-residential buildings</li> <li>Note: Projects consented are not necessarily commenced or completed. "New" refers to new buildings (i.e. excludes alterations and additions). Residential number is new dwellings consented, which will exceed new residential buildings as some buildings have multiple dwellings; similarly, it will differ from new residential building consents issued, as some consents are for multiple buildings.</li> <li>Source: Stats NZ, Building Consents (monthly); Stats NZ, CGPI (quarterly); Auckland Council (RIMU), calculations.</li> </ul>	<ul> <li>Note: Covid-19 lockdown level 3 began on 23 March 2020, plus wage subsidies, which both affect official unemployment.</li> <li>Historical data for 2013 to 2020 was re-rebased by Stats NZ in October 2020 to match latest revisions of historic population estimates.</li> <li>Both datasets are from a survey (HLFS) so are subject to error margins. Respondents define their own employment status. The survey covers all people aged 15+, so includes school pupils 15+ and people over 65, who might or might not have - or be actively seeking - a job.</li> <li>Source: Stats NZ, Household Labour Force Survey (HLFS) (quarterly).</li> </ul>	Note: Left axis is for CCI (consumers: index). For the CCI, a score of greater than 100 shows more optimism than pessimism. Right axis is for QSBO (businesses: net %). The QSBO calculates a net figure as (% of businesses expecting an improvement) minus (% expecting a worsening). QSBO data used here is not the seasonally adjusted version. Source: Westpac McDermott Miller, Regional Consumer Confidence Index (CCI) (quarterly – published, but proprietary); New Zealand Institute of Economic Research (NZIER), Quarterly Survey of Business Opinion (QSBO) (quarterly – by subscription).
