# 1 Summary

The *Auckland Monthly housing update*, prepared by Auckland Council's Land Use Research and Evaluation Team, collates significant Auckland housing related statistics including:

- dwellings – consented, by type, and with CCCs issued
- residential parcels – created, and inside Auckland Plan monitoring boundaries – 2010 Metropolitan Urban Limit (MUL) and Rural Urban Boundary (RUB)
- permanent and long-term migration
- median residential sales price
- public housing supply and demand in Auckland.

## 2 Highlights

- 1290 dwellings were consented in July 2024.
- In the year ending July 2024, 13,662 dwellings were consented in the region.
- 36 per cent of new dwellings consented in July 2024 were houses, 3 per cent were apartments and 61 per cent were townhouses, flats, units, retirement village units, or other types of attached dwellings.
- 49 dwellings were consented on Kāinga Ora or Tāmaki Regeneration Company owned land in July 2024.
- 1221 dwellings consented in July 2024 were inside the RUB. Over the past 12 months, 95 per cent of new dwellings consented were inside the RUB.
- 19 per cent of dwellings consented were inside the 1500m walking catchments of the rapid transit network in July 2024.
- 365 dwellings were consented on properties overlapping hazard zones in July 2024, accounting for 28 per cent of total dwellings consented. Over the past 12 months, 14 per cent of new dwellings were consented on properties overlapping a hazard zone.
- 1614 dwellings were 'completed' by having a Code Compliance Certificate (CCC) issued in July 2024.
- In the year ending July 2024, 19,197 dwellings had a CCC issued.
- 1551 new residential parcels under 5000m<sup>2</sup> were created in August 2024.
- In the past 12 months, 16,194 new residential parcels under 5000m<sup>2</sup> were created – an average of 1350 each month.
- In August 2024, 1558 new residential parcels of all sizes were created.
- Long-term arrivals in June 2024 were 4883.
- 1273 public housing applications have been housed in the June quarter 2024.

# 16 Notes on data and analysis

## **Dwellings consented and dwellings consented by type**

Monthly building consent information is sourced from Statistics New Zealand's InfoShare online portal, which includes counts of number of new dwellings consented, by type of dwelling.

## **Dwellings consented by Auckland Plan monitoring boundaries**

Monthly data for individual building consents is supplied by Statistics New Zealand and mapped to properties by the Spatial Analysis and Modelling Team. This data is then analysed against its location relative to the Auckland Plan monitoring boundaries, namely the 2010 Metropolitan Urban Limit (MUL) and the Rural Urban Boundary (RUB).

## **Dwellings consented within hazard zones**

Monthly data for individual building consents is supplied by Statistics New Zealand and mapped to property parcels by the Spatial Analysis and Modelling Team. Property parcels which intersect a hazard zone (flood plains, flood prone areas, tsunami evacuation zones, areas of coastal inundation and erosion zones) are counted towards the total regardless of how small the intersection.

## **Dwellings with CCCs issued (completions)**

Monthly building consent completions data is supplied by Auckland Council Building Control. The data shows the total number of dwelling units which have had Code Compliance Certificate (CCC) issued in that month. This gives an estimation of the number of dwellings being "completed", or "released to the market".

## **Residential parcels created and residential parcels created inside the 2010 Metropolitan Urban Limit and the Rural Urban Boundary**

Parcel data is sourced from Land Information New Zealand (LINZ). A new dataset is downloaded from the LINZ Data Service by the Spatial Analysis and Modelling Team monthly. A list of parcels created in the previous month is also downloaded; this is used to extract new parcels created in the previous month. The new parcels created data is then analysed for size, the Auckland Unitary Plan (decisions version) zone it falls in and its location relative to the 2010 MUL and the RUB.

## **Permanent and long-term migration**

Migration data is sourced from Statistics New Zealand's InfoShare online portal; arrivals, departures and net change are estimated for Auckland.

**Median residential sales price**

The Real Estate Institute of New Zealand (REINZ) produces monthly statistics on the median house price sales for Auckland from data provided to it by its members. This data is available on the REINZ website.

**Public housing supply**

Public houses are properties owned or leased by Kāinga Ora and registered Community Housing Providers (CHPs) that can be tenanted by people who are eligible for public housing. (definition extracted from Ministry of Housing and Urban Development 2019, Public Housing in Auckland Region factsheet September 2019, page 1. <https://www.hud.govt.nz/assets/Community-and-Public-Housing/Follow-our-progress/September-2019/Housing-regional-factsheets-September-2019/67824a28bb/Housing-regional-Factsheets-September-2019-Auckland.pdf>)

**Public Housing Register**

The Public Housing Register is comprised of a Housing Register and a Transfer Register. The Housing Register is prioritised by need and consists of public housing applicants who have been assessed as being eligible. The Transfer Register is made up of people already in public housing, but who have requested and are eligible for a transfer to another property. (definition extracted from Ministry of Housing and Urban Development 2019, Public Housing in Auckland factsheet September 2019, page 3. <https://www.hud.govt.nz/assets/Community-and-Public-Housing/Follow-our-progress/September-2019/Housing-regional-factsheets-September-2019/67824a28bb/Housing-regional-Factsheets-September-2019-Auckland.pdf>)
